MANAGEMENT DISCUSSION & ANALYSIS REPORT {MDAR}

Your Directors have pleasure in presenting the Management Discussion and Analysis report for the year ended on 31st March 2019.

Opportunities

Reports from the World Bank indicate that Non Banking Financial Institutions act as critical pillars contributing to macroeconomic stability and sustained economic growth and prosperity, due to their ability to finance firms and individuals at a reasonable cost, reduce volatility by providing multiple sources to finance and park funds and enable creation of a competitive environment characterized by a diverse array of products. This has been proven time and again in developed markets.

Non-Banking Finance Companies (NBFCs) continue to play a critical role in making financial Services accessible to a wider set of India's population and are emerging as strong intermediaries in the retail finance space. Going forward, one should expect NBFCs to further strengthen their presence in retail finance and grow at a reasonably healthy pace.

Threats

The biggest challenge before NBFCs is that they are facing stiff competition from banks and financial institutions, due to their ability to raise low cost funds which enables them to provide funds at much cheaper rate. More stringent capital adequacy norms have been stipulated by RBI for NBFCs which is making difficult for them to give cheaper finance.

Ever-increasing competition from commercial counterparts whose capacity to absorb losses is higher, counterparty failures, recommendations being made to increase the purview of monitoring by regulatory authorities increase the threat of losing the essence of Non-banking Finance Companies which are specifically designed to reach out and finance certain target groups.

Segment-wise or product-wise performance of the Company

The Company is a Non Banking Finance Company (NBFC). It is engaged in the business of financing which is the only segment in the Company. Hence, the results for the year under review pertain to only financing activity.

Risks and concerns

The NBFC industry in general faces the risk of re-entry and new entry of players and existence of several unorganized regional players increasing the competition which mainly affects the asset quality. This is further characterized by captive NBFCs floated by other business houses. The ever existing systemic and delinquency risks and fluctuations in interest rates and risk weight make the companies more vulnerable. Deployment of funds in sensitive and volatile sectors increases the risk exposure while concentration risk increases dependency.

Internal Control Systems and their adequacy Internal Control measures and systems are established to ensure the correctness of the transactions and safe guarding of the assets. The Management ensures adherence to all internal control policies and procedures as well as compliance with regulatory guidelines. The audit committee of the Board of Directors reviews the adequacy of internal controls. This has improved the management of the affairs of the Company and strengthened transparency and accountability.

Cautionary Statement

Statements in the Management Discussion and Analysis Report describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of the applicable laws and regulations.

Actual results could differ materially from those expressed or implied. Important factors that could influence the Company's operations include economic and political conditions in which the Company operates interest rate fluctuations, changes in Government / RBI regulations, Tax laws, other statutes and incidental factors.
